

FUNDAMENTALS OF RISK MANAGEMENT

COURSE FEATURES

The one-day Risk Management course will allow participants to understand the concept and principles of Enterprise Risk Management, COSO-Committee of Sponsoring Organisation, The Principles and Guidelines of ISO 31000 in implementing risk management plans in their respective organisations.

To have an overview of the main clauses of ISO 31000 which is the recommended international standard for Risk Management. It provides a reference framework for principles and generic guidelines on Risk Management and it can be applied to any type of risk, whatever its nature, whether having positive or negative consequences.

It can be applied to a wide range of activities, including risk management strategies and decisions at strategic level, tactical and operational level. It takes into account the varying needs of a specific organisation, its particular objectives, context, structure, operations, processes, functions, projects, services, or assets and specific practices employed.
